Computational Methods for Three-Dimensional Microscopy Reconstruction Gabor T. Herman,Joachim

Frank,2014-01-29 Approaches to the recovery of three dimensional information on a biological object which are often formulated or implemented initially in an intuitive way are concisely described here based on physical models of the object and the image formation process Both three dimensional electron microscopy and X ray tomography can be captured in the same mathematical framework leading to closely related computational approaches but the methodologies differ in detail and hence pose different challenges The editors of this volume Gabor T Herman and Joachim Frank are experts in the respective methodologies and present research at the forefront of biological imaging and structural biology Computational Methods for Three Dimensional Microscopy Reconstruction will serve as a useful resource for scholars interested in the development of computational methods for structural biology and cell biology particularly in the area of 3D imaging and modeling Maine Register Or State Year-book and Legislative Manual ,1904 Vols for 19 include Classified business directory of the entire state
