**Law as an Artifact** Luka Burazin, Kenneth Einar Himma, Corrado Roversi, 2018-08-08 This volume assembles leading scholars to examine how their respective theoretical positions relate to the artifactual nature of law It offers a complete analysis of what is ontologically entailed by the claim that law including legal systems legal norms and legal institutions is an artifact and what consequences if any this claim has for philosophical accounts of law Examining the artifactual nature of law draws attention to the role that intention function and action play in the ontological structure of law and how these attributes interact with rules It puts the role of author and authorship at the center of its analysis of legal ontology and widens the scope that functional analysis can legitimately have in legal theory emphasizing how the content of law depends on how it is used Furthermore the appeal to artifacts brings to the fore questions about the significance of concepts for the existence of law and makes available new tools for legal interpretation The notion of artifactuality offers a starting point from which to approach the basic dilemma of whether it is meaningful to search for essential necessary and sufficient features of law a question that in current legal theory is put when deciding what kind of enterprise legal theory is from a methodological point of view namely whether it is descriptive or prescriptive This volume unearths insights and observations of value to all those looking to deepen their understanding of how the law is understood and experienced The Emergence of Normative

Orders Jerzy Stelmach, Bartosz Brozek, Lukasz Kurek, 2016 This collection of essays assesses the origins of various rule based systems including but not limited to morality rationality and justice from the perspectives of both philosophy and psychology The reader will learn about diverse cognitive and neurocognitive phenomena that are responsible for the emergence of normative orders such as imitation time preferences and the dual processing mind Furthermore the essays include different philosophical insights into the genealogy of norms Subject Philosophy Psychology Cognitive Science **Russian Legal**
