2026 Guide Cybersecurity:

Information Security Education. Empowering People Through Information Security Education Lynette Drevin, Wai Sze Leung, Suné von Solms, 2025-07-25 This book constitutes the refereed proceedings of the 17th IFIP WG 11.8 World Conference on Information Security Education WISE 2025 held in Maribor Slovenia during May 21-23, 2025. The 13 full papers presented were carefully reviewed and selected from 30 submissions. The papers are organized in the following topical sections: Workforce and Curriculum Development; Curriculum and Research Development; Gamification in Cybersecurity Education; Innovative Approaches to Cybersecurity Awareness; Papers Invited from SEC and Discussions.

FY2026-FY2028 Medium-Term Budget International Monetary Fund. Office of Budget and Planning, 2025-05-02 The global economy has proven resilient in the post-pandemic period with global disinflation continuing but with significant remaining uncertainty. This backdrop and transformations in the economic landscape are driving strong demand for Fund engagement. The proposed budget is guided by the longstanding principle of budget prudence. Notwithstanding a modest proposed structural top-up to supplement critical cybersecurity-related needs, overall net resourcing to departments will decline given ongoing unwinding of temporary pandemic-era resources. Smart Ports and Robotic Systems Tafsir Matin Johansson, Dimitrios Dalaklis, Jonatan Echebarria Fernández, Aspasia Pastra, Mitchell Lennan, 2023-04-02 This book provides a comprehensive overview of smart ports and remote technologies in the maritime industry. It demonstrates how modern advances in artificial intelligence and robotics have transformed the shipping industry and assesses the impact of this technology from a law and governance standpoint. The book covers a range of topics including port autonomous operations systems, cybersecurity, big data analytics, digitalization, and blockchain to throw light on the opportunities and benefits of these new technologies in improving security and safety. It also considers the challenges and threats of their application. It concludes by examining the trajectory of national and international regulatory developments. The book will appeal to scholars and students of maritime technology, law, and governance as well as practitioners and policymakers. Chapters 8, 19, and 20 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com. **Smart**

Technology Applications in Water Management Tamim Younos, Juneseok Lee, Tammy E. Parece, 2025-07-01 This book reviews the latest advances and practical applications of smart technologies applied to water resource management. Bridging environmental chemistry, engineering, and information technology, the book offers a multidisciplinary perspective on how digital innovations are reshaping water monitoring, infrastructure, diagnostics, and decision-making processes. Chapters by expert contributors cover topics such as the applications of machine learning for drinking water pipeline replacement, geospatial technologies, satellite and remote sensing technologies, Internet of Things (IoT), cybersecurity, robotics in water monitoring, and artificial intelligence. Particular attention is given to the applications in real-time modelling of flood forecasting in urban drainage systems and the implementation of smart water networks. With detailed case studies and

industry insights this book highlights practical implementations such as smart water networks optimal sensor deployment and AI driven service line material detection Given its breadth the book is a valuable resource for researchers scholars and students and serves as a roadmap for water resource engineers and planners tackling water security and diverse water resources portfolios Chapter 1197 is available open access under a Creative Commons Attribution 4 0 [Designing for Tomorrow: Innovation and Equity in Global Interaction Design](#) Ganesh Bhutkar,Sheethal Tom,Debjani Roy,Jose Abdelnour-Nocera,2025-07-23 This book constitutes the refereed proceedings of the First IFIP Working Group 13 8 Interaction Design for International Development IDID 2024 held in Mumbai India during November 7 9 2024 The 14 full papers included in this book were carefully reviewed and selected from 17 submissions The aim of this working group is to pursue research and promote the discipline of Human Computer Interaction HCI in an international context It also provides a platform where both emerging and experienced researchers from academia and industry can converge to exchange their latest findings in the ever evolving realm of HCI and International Development **The Economics of Digital Transformation** Katarzyna Śledziowska,Renata Włoch,2021-08-01 The unprecedented Covid 19 crisis revealed the scale and scope of a new type of economy taking shape in front of our very eyes the digital economy This book presents a concise theoretical and conceptual framework for a more nuanced analysis of the economic and sociological impacts of the technological disruption that is taking place in the markets of goods and services labour markets and the global economy more generally This interdisciplinary work is a must for researchers and students from economics business and other social science majors who seek an overview of the main digital economy concepts and research Its down to earth approach and communicative style will also speak to businesses practitioners who want to understand the ongoing digital disruption of the market rules and emergence of the new digital business models The book refers to academic insights from economics and sociology while giving numerous empirical examples drawn from basic and applied research and business It addresses several burning issues how are digital processes transforming traditional business models Does intelligent automation threaten our jobs Are we reaching the end of globalisation as we know it How can we best prepare ourselves and our children for the digitally transformed world The book will help the reader gain a better understanding of the mechanisms behind the digital transformation something that is essential in order to not only reap the plentiful opportunities being created by the digital economy but also to avoid its many pitfalls Chapters 1 3 and 5 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com They have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license *Fortress Shield - 2026 Essential Digital Defense for Regular People* Alan Palmer,2025-10-13 Fortress Shield 2026 is a practical field guide for personal cybersecurity and identity protection written for general readers who want to take control of their digital safety Drawing on three decades of experience in Air Force cyber and command and control operations CMSgt Alan Palmer USAF Ret translates military
