Mindfulness Meditation 2025 Edition:

The Myth of Aging Arnold Gilberg MD, Jon Land, 2026-01-13 Arnold Gilberg MD a Distinguished Life Fellow of the American Psychiatric Association has treated thousands of patients in his Los Angeles based practice Now the so called psychiatrist to the stars wants to put his six decades of experience to good use by offering a prescription for happiness and fulfillment aimed mostly at those enjoying what should be the happiest years of their lives Dr Gilberg who himself became an ordained rabbi later in life and is still practicing psychiatry as an octogenarian offers a model for finding the joy and energy to speed up instead of slow down In *The Myth of Aging* he covers a range of topics that center on the inevitabilities along with the boundless possibilities of life believing wholeheartedly that being whatever and whoever you want is not reserved exclusively for the youngest among us Dr Gilberg brings his clinical experience to the table to help people create positive changes in their lives Because you re never too old not only to dream but also to see those dreams come true

Mindfulness in Internet and New Media Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24 Mindfulness is about being aware in a certain way being consciously aware on purpose living in the present moment without mental judgment In addition to the in depth application of mindfulness in different subdisciplines of psychology e g social personality clinical developmental health organizational there is also a trend toward cross fertilization with other social and behavioral disciplines e g design kinesiology sociology family studies education anthropology neuroscience philosophy economics medicine organizational science However the application of mindfulness in the field of communication is limited With the rapid development of the Internet and new media the study of Internet communication is growing rapidly The Internet and new media make it easy to connect with others explore a new world and regard cyberspace as an extension of one s own thoughts and personality Nevertheless when people use the Internet and new media mindless they will easily experience the social effects on their virtual selves and encounter psychological problems e g network morality network anxiety network pornography network addiction and cyberbullying which has become a widespread and serious problem As an important part of positive psychology mindfulness intervention has been proved to help improve a series of negative psychological states and promote positive emotions and subjective well being However what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown Thus this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication We welcome high quality studies using a variety of research methods including quantitative qualitative mixed methods and reviews on the second generation of mindfulness interventions and other meditation based interventions e g focused attention meditation transcendental meditation and loving kindness meditation This Research Topic encourages submissions that cover but are not limited to the following topics 1 The internet and new media guided mindfulness and loving kindness meditation practice 2 Mindfulness and interpersonal communication in the network network trust network security network intimacy 3

Mindfulness and network clustering behavior 4 Mindfulness and online consumer psychology 5 Mindfulness and cyber moral psychology cyberbullying cyber altruism and prosocial behavior 6 Mindfulness and online pornography 7 Mindfulness and internet addiction 8 Mindfulness and online psychological counseling 9 Mindfulness and new media anxiety *6th International Conference on Biomedical Engineering* Hoi Leong Lee, Haniza Yazid, Fatimah Ibrahim, 2024-12-29 This book gathers the proceedings of the 6th International Conference on Biomedical Engineering ICoBE 2023 which was held on September 4-6, 2023 in a hybrid form in Kuala Lumpur Malaysia. The sixty-five peer-reviewed papers included here cover a diverse range of topics such as bioinstrumentation and biomedical devices, biomedical signal and image processing, artificial intelligence, bioinformatics, and Internet of Things (IoT) in healthcare, as well as biomaterials, biomechanics, and rehabilitation, and report on both theoretical and practical findings achieved in different countries including Philippines, Indonesia, Japan, United Arab Emirates, and Italy, besides Malaysia. Addressing an interdisciplinary audience of engineers, physicists, scientists, and researchers, this book offers extensive information on the current role and challenges of computer methodologies, artificial intelligence, and machine learning in healthcare, together with strategies to improve healthcare through innovation. It truly reflects the theme of the 6th conference edition, namely *Be the Change: The Key to Better Healthcare Quality*. **The Inner Logout** Rakesh Mishra, We live in an era where the boundaries between the physical and digital worlds have blurred to the point of near indistinction. The smartphone in your pocket, the laptop on your desk, the smartwatch on your wrist—these devices once heralded as tools of convenience have woven themselves into the fabric of our daily lives, dictating how we work, connect, and even think. This hyperconnected world, while a marvel of human ingenuity, has birthed what can only be described as a digital epidemic: an insidious, pervasive force that fragments our attention, erodes our mental well-being, and distances us from our inner selves. The statistics paint a stark picture. As of 2025, the average person spends over 7 hours a day on screens, with global internet users surpassing 5 billion. Social media platforms, streaming services, and instant messaging apps compete relentlessly for our attention, leveraging algorithms designed to keep us scrolling, clicking, and engaging. The average smartphone user checks their device 150 times a day, often without conscious intent, driven by a dopamine-fueled cycle of notifications and instant gratification. This constant connectivity has transformed how we interact with the world, but at what cost? The digital epidemic is not just about time spent online; it's about the psychological and emotional toll it exacts. Studies show a sharp rise in anxiety, depression, and sleep disorders correlated with excessive screen time. The constant barrage of notifications, emails, likes, retweets, and breaking news creates a state of perpetual alertness, leaving our nervous systems in a chronic state of fight or flight. The prefrontal cortex, responsible for focus and decision-making, is overwhelmed by the sheer volume of information we process daily, leading to what psychologists call cognitive overload. This overload manifests as mental fog, reduced productivity, and a pervasive sense of being always on yet never fully present.

Mindfulness for All Jon Kabat-Zinn, 2019-02-05 More than twenty years ago Jon Kabat Zinn changed the way we thought about awareness in everyday life with his now classic introduction to mindfulness Wherever You Go There You Are He followed that up with 2005's Coming to Our Senses the definitive book for our time on the connection between mindfulness and our well being on every level physical cognitive emotional social planetary and spiritual Now Coming to Our Senses is being repackaged into 4 smaller books each focusing on a different aspect of mindfulness and each with a new foreword written by the author In the fourth of these books Mindfulness for All which was originally published as Part VII and Part VIII of Coming to Our Senses Kabat Zinn focuses on how mindfulness really can be a tool to transform the world explaining how democracy thrives in a mindful context and why mindfulness is a vital tool for both personal and global understanding and action in these tumultuous times By coming to our senses both literally and metaphorically we can become more compassionate more embodied more aware human beings and in the process contribute to the healing of the body politic as well as our own lives in ways both little and big

Think Like a Human David Weitzner, 2025-05-13 A new way of thinking that improves how we work create and live empowering readers to outsmart AI a tool that can never do what humans do The bedrock on which technology has been built and on which we now make strategic political ethical and even day to day decisions algorithmic thinking is flawed As we race headlong into a future where we outsource all our problem solving to artificial intelligence the greatest threat is not superintelligent machinery but too much trust in Big Tech and not enough trust in the power of our own minds Think Like a Human offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that can help each of us solve problems and make better decisions To think artfully is to approach problem solving not just with our brains but with our hands eyes and ears along with our literal and metaphorical hearts and

guts tapping into the myriad of underutilized cognitive resources distributed throughout our bodies Think Like a Human is a refreshing antidote and reality check to artificial intelligence mania and fear Cutting through the hype misinformation and corporate hustle around AI this book will inspire you to adopt the artful approach bringing intuition and emotional intelligence to your work and life

Releasing Our Burdens Thomas Hübl, Richard Schwartz, Ph.D., 2025-12-02 The authors definition of trauma is valuably broad and complex and their concepts are unpacked in nonjudgmental terms It s a solid addition to the rising tide of literature on trauma Publishers Weekly A groundbreaking collaboration between Dr Richard Schwartz founder of Internal Family Systems IFS and Dr Thomas Hübl renowned teacher and trauma healing facilitator on healing individual ancestral and collective trauma to reclaim resilience and transform our world We often view trauma as a personal wound to heal on our own but trauma is rarely just an individual issue It is shaped by ancestral burdens passed down through generations and by the collective pain we experience from the world around us Beloved teachers Richard Schwartz and Thomas Hübl bring together their wisdom to chart a new path forward that addresses these deeper layers of wounding so we can heal ourselves our communities and our world In this powerful book Hübl and Schwartz help us understand why individual trauma cannot be separated from the legacies of shared past and present traumas The authors explore their respective approaches to trauma healing and how these modalities can work together Schwartz is the creator of IFS a highly effective evidence based therapeutic approach that teaches that we all contain many parts and also have an undamaged healing Self Hübl has done powerful work on trauma healing particularly collectively and in groups Together they offer methods and practices that help us begin to Release beliefs and emotions that no longer serve us Break cycles of harm Expand our awareness Become more compassionate and curious as we heal A chapter from Fatimah Finney a licensed mental health counselor and a trainer at the IFS Institute helps us apply these methods to the wounds caused by social injustices such as racial bias and oppression Through this work Hübl shares We can unload the burden and create a more flourishing world
