Foreign Policy Analysis Klaus Brummer, Kai Oppermann, 2024 Foreign Policy Analysis is the most systematic thorough guide to core foreign policy approaches drawing insights from international relations and non-Western perspectives to provide students with a full understanding of theory. Brummer and Oppermann put theoretical approaches front and centre without neglecting the right connection with international relations theories. This book challenges Western-centric perspectives on foreign policy analysis and reflects the rise of non-Western scholarship in the field. This edition is available for students and institutions to purchase in a variety of formats. The e-book offers a mobile experience and convenient access along with functionality tools, navigation features, and links that offer extra learning support. www.oxfordtextbooks.co.uk/ebooks

Routledge Handbook of Foreign Policy Analysis Methods Patrick A. Mello, Falk Ostermann, 2022-12-26 The disintegration and questioning of global governance structures and a re-orientation toward national politics combined with the spread of technological innovations such as big data, social media, and phenomena like fake news, populism, or questions of global health policies make it necessary for the introduction of new methods of inquiry and the adaptation of established methods in Foreign Policy Analysis (FPA). This accessible handbook offers concise chapters from expert international contributors covering a diverse range of new and established FPA methods. Embracing methodological pluralism and a belief in the value of an open discussion about methods, assumptions, and diverging positions, it provides new state-of-the-art research approaches as well as introductions to a range of established methods. Each chapter follows the same approach: introducing the method and its development, discussing strengths, requirements, limitations, and potential pitfalls while illustrating the method's application using examples from empirical research. Embracing methodological pluralism and problem-oriented research that engages with real-world questions, the authors examine quantitative and qualitative traditions, rationalist and interpretivist perspectives, as well as different substantive backgrounds. The book will be of interest to a wide range of scholars and students in global politics, foreign policy, and methods-related classes across the social sciences. Chapters 4, 25, and 32 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com. It has been made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 license.

Foreign Policy Analysis Valerie M. Hudson, Benjamin S. Day, 2019-09-03 This

succinct yet comprehensive introduction to Foreign Policy Analysis FPA is geared toward advanced undergraduate and beginning graduate students. Cogently written, clearly organized and filled with illuminating examples, the third edition has been thoroughly revised and updated. Beginning with an overview of this broad field of study, Hudson and Day consider theory and research at multiple levels of analysis, including personality and psychology of foreign policy decision makers, small group dynamics, the organizational process, bureaucratic politics, domestic politics, cultural and societal influences, national attributes and system level effects on foreign policy. The authors also examine the promise and frustration of theoretical integration in FPA and overview promising new work by non North American scholars.

Foreign Policy Analysis of a Baltic State Tomas Janeliūnas, 2020-12-30 This book provides a comprehensive analysis of Lithuanian foreign policy by employing the theory of small states and the agent perspective to assess how President Dalia Grybauskaitė impacted Lithuanian foreign policy in 2009-2019 and which in turn could affect changes in international structures. The book is based on original interviews with Grybauskaitė and all her foreign policy advisors as well as other Lithuanian diplomats and Ministers of Foreign Affairs. In addition to providing an important case study of Lithuanian foreign policy, this monograph also discusses the impact an agent formulating and executing small state foreign policy may have on the grand structures of international relations such as the EU and NATO. For its investigation of the mutual relationship between agent and structure, this monograph draws on the literature on foreign policy analysis (FPA) and asks questions about the extent to which a particular leader of foreign policy may determine a specific policy decision or outcome. This book will be of particular interest to students of the Baltic region and Russia-Baltic relations as well as to political scientists and researchers interested in FPA literature and small state security.

Foreign Policy in Greenland Maria Ackrén, 2025-05-13 Foreign Policy in Greenland will shed light on what kind of competences Greenland has in IR and how Greenland undertakes foreign policy while still being a self-governing territory underneath Danish jurisdiction. Even though Denmark has the ultimate power when it comes to foreign and security policy, Greenland has received more autonomy in this field in recent years. Back in 1995, a permanent Danish-Greenlandic official group was established to discuss all foreign and security matters that were related to Greenland. In 2003, Greenland and Denmark signed a joint declaration in Itilleq regarding the Greenlandic involvement in international affairs. Since then, the Government of Greenland has written a foreign policy report every year to outline the activities of Greenlandic international relations. This book will undertake a systematic analysis of the foreign policy papers since 2003 or earlier and onwards. What kind of activities have Greenland undertaken in international affairs? What are the objectives? Can Greenland be an influential player in international relations? How far is the self-government stretched or limited in relation to international relations? This book will be of interest for those with an interest in international affairs and law as well as those with an interest in international politics and foreign policy.

Mao Zedong & China's Foreign Policy Amrita Jash, 2025-07-22 This book analyses China's foreign policy from 1949 to 1976 through a cognitive-perceptual lens, emphasising Mao Zedong's

central role as the primary decision making authority Moving beyond realist frameworks it highlights how Mao's ideological worldview shaped by his theory of contradictions revolutionary zeal and use of historical analogies drove China's foreign policy particularly in relation to Vietnam His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China's historical identity guided key strategic decisions The study underscores the importance of individual leaders beliefs perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches
