and continual fascination **Miniature Monuments** Helmut Puff, 2014-06-23 Miniature Monuments Modeling German History offers a series of essays on small scale models of bombed out cities Created between 1946 and the present these plastic renderings of places provide eerie glimpses of destruction and devastation resulting of the air war This study thus permits fresh angles on post war responses to the compounded losses of WW II and it does so through considering these miniature monuments of among others Frankfurt Munich Schwetzingen Heilbronn and Hiroshima in a deep cultural history that interlaces the sixteenth eighteenth and twentieth centuries Three dimensional renderings in diminutive size have rarely been subjected to rigorous theoretical reflection Conventionally models whether of ruins or intact spaces have been assumed to be easily legible that is they have been assumed to be vehicles of the authentic Yet rubble and other models should be theorized as complex simulacra of abstract realities and catalysts of memories Miniature Monuments thus tackles a haunting paradox building ruins The book elucidates how utterly contingent processes of crumbling and collapse the English words for the Latin ruina came to command such great interest in modern Europe that tremendous efforts were taken to uncover render and most of all recreate ruins *Feasting Dragon, Starving Eagle* Peter G. de Krassel, 2011-01-19 An analysis of how America through its misguided and bankrupt economic financial and foreign policies and alliances has allowed China and its citizens to prosper at the expense and suffering of Americans who are picking up most of the global economic rehabilitation tab The ongoing domestic foreign economic and geopolitical policy failures of career politicians in Washington D C financed by their Wall Street backers and executed by their politically connected incompetent bureaucrats charged with implementing the congressional and presidential non starters are graphically analyzed and described America s career politicians and corporate titans are blamed directly for their stupid and misguided policies While America has spent more than 10 billion to 15 billion a month for five years on the wars in Iraq and Afghanistan and continues to do so China has spent the same amount of money on education developing new technologies and building state of the art infrastructure relevant to the 21st century It doesn t take much to figure out which country made the better investment The 2008 Beijing Olympics where China won more gold medals than the U S are a reaction on how China has raised its game in the daily global competition for economic political and sports supremacy not military China is not a military threat to America China and America differ in their geopolitical and domestic approach and how each country s soldiers must serve their citizens Two visually poignant pictures of which country uses its armed forces more productively are the images of the People s Liberation Army helping the victims of the devastating Sichuan earthquake in 2008 and removing the masses of algae from a beach in Qingdao where the Olympic sailing events took place What a contrast to America scrambling to find emergency personnel to help out in the aftermath of Hurricane Katrina America is now playing catch up with its economic stimulus package in an effort to continue to be a relevant global inter local power America and China can continue to learn from each other as their people and economies become more intertwined Both countries must join hands to lead the world through climate economic and political
