## **Formation Of The Moral Self Studies In Practical Theology:**

Formation of the Moral Self J. A. van der Ven, 1998 In the course of his study in practical theology Dutch scholar Johannes A van der Ven provides a foundational understanding of the process of moral development and the structures of education that help initiate it *Hermeneutics and Empirical Research in Practical Theology* Chris Hermans, Mary Moore, 2021-09-20 There is a growing consensus among scholars in different countries about the object of practical theology Hans van der Ven has contributed much to this consensus through his writings on the foundations of practical theology the empirical paradigm within practical theology and specific subdisciplines within practical theology especially religious education moral education church development and ministry At the center of this growing consensus is an understanding of the independent hermeneutical role of religious experiences and practices of people in the process of theological theory building If contemporary religious experiences and practices have a critical role with regard to religious tradition and the ministry of this tradition then practical theology cannot just be a form of applied theology The contributors of this volume focus on this hermeneutical core foundations of practical theology and on empirical research as a research method within practical theology in the work of Van der Ven **Heythrop Journal** , 1999 A select book list appears quarterly **Book Review Digest** , 1910 **Identity and Religion** Ad Borsboom, F. P. M. Jespers, 2003 Suffering in Worship Armand Léon van Ommen, 2016-11-25 How does the universal experience of suffering relate to the experience of worship Questioning how Anglican liturgy welcomes people who are suffering Suffering in Worship uniquely applies a narrative ritual model for the analysis of both the liturgical text and worship services themselves In this book van Ommen draws on interviews with participants in worship as well as clergy Highlighting several elements in the liturgy which address suffering including the Eucharist songs sermons and prayers of intercession he shows the significance of a warm and safe liturgical community as a necessary context for suffering people to find consolation This book also uses the concept of remembrance to plead for liturgy that attends to the suffering of both God and people As such it will be of interest to scholars of pastoral theology as well as clergy **Religion Inside and Outside Traditional Institutions** International Society for Empirical Research in Theology. Conference, 2007 Religion inside and outside Traditional Institutions combines conceptual reflection methodological proposals and research results that help to understand contemporary religious praxis These contributions to empirical theology thereby adopt a perspective which includes religious praxis outside traditional institutions The Human Image of God Hans-Georg Ziebertz, Friedrich Schweitzer, Hermann Häring, Don Browning, 2021-10-01 A new wave of religious energy is sweeping through the western nations Although God is disappearing from religious discourse in western culture both as a word and as a concept there is a definite undercurrent of religious ardour which is growing in strength It focuses all the more attention on the issue what or who is God in the modern era This is the question examined through systematic studies practical theology and empirical research that are presented here through anthropologically relevant theology

Renowned international authors make it plain in this book the question of God is exciting again This book is published in honour of Johannes A van der Ven on the occasion of his 60th birthday     *AAR/SBL Annual Meeting Program* American Academy of Religion.
