KJ Lindholm-Leary

Award Winning Language Learning:

Innovation in Language Learning and Teaching Hayo Reinders, Christine Coombe, Andrew Littlejohn, Dara Tafazoli, 2019-05-04 This edited collection presents a study of innovation in teaching learning assessment and teacher development practices in the Middle East and North Africa MENA The thirteen research based chapters in this collection examine recent innovations in English language teaching drawing on classroom administrative and learning experiences from seven of the countries in the region The major trends analyzed across the volume include the language skills of reading and writing and the prevalence of technology and technology enhanced instruction It highlights that innovative teaching learning and assessment practices that are now in place in virtually all levels of English language teaching and learning from primary school to university to adult education sectors and reflects on possible ways forward for innovation in the field of ELT This book will provide valuable insight for scholars of applied linguistics and practitioners working in language policy **New case studies of openness in and beyond the language classroom** Anna Comas-Quinn, Ana Beaven, Barbara Sawhill, 2019-07-26 A follow up to the successful 2013 publication about OER and language teaching this book celebrates the many ways in which language teachers and learners around the globe are embracing the concept of openness in and beyond the language classroom Divided into three sections creating and using OERs working in open spaces and openness and teacher development these short practical case studies provide first hand information on how openness can facilitate language teaching and learning The editors hope it will inspire teachers to explore open tools practices and teacher development as part of their language teaching practice *Russian Life*, 2010 **New directions in telecollaborative research and practice: selected papers from the second conference on telecollaboration in higher education** Sake Jager, Malgorzata Kurek, Breffni O'Rourke, 2016-11-28 This collection of papers consisting of 39 delegate contributions and three keynote articles from New directions in telecollaborative research and practice the second conference on telecollaboration in higher education hosted by Trinity College Dublin in April 2016 offers a window on a rapidly evolving form of learning Telecollaboration is used in many formats and contexts but has as a defining feature the ability to unite learners from classrooms around the world in meaningful computer mediated tasks and activities This cross disciplinary overview discusses telecollaboration in support of language and culture teacher training student mobility and other disciplines and skills from a range of analytical perspectives It will be of interest to anyone working in HE as an educator researcher educational designer mobility officer decision maker or administrator **Educational Research and Innovation Beyond Textbooks Digital Learning Resources as Systemic Innovation in the Nordic Countries** OECD, 2009-11-09 This publication reviews and evaluates the process of systemic innovation in digital learning resources assembling information on the knowledge bases and policy actors which impact each phase of this innovation process and the main factors which influence its success **Didactics of Microlearning** Theo Hug, 2007 This book is a comprehensive and

articulate introduction to the emerging field of microlearning In public institutions in small and medium sized enterprises and in informal contexts we are all dealing with increasingly complex learning requirements more fragmented knowledge demands for greater cultural flexibility and rapid technological change As a result new approaches are required focusing on microcontent medial fluency and spaces of learning

The Roles of Social Media in Education: Affective, Behavioral, and Cognitive Dimensions Hung Phu Bui, Mark Bedoya Ulla, Veronico N. Tarrayo, Chien Thang Pham, 2023-10-24 technologies in education A large body of research has attempted to measure the extent to which social media change human communication In education researchers and educators have employed social media to increase students engagement inside and outside the classroom They have been exploring the effects of the use of social media on the learning outcome and learners beliefs and experiences However some of their endeavors are inconclusive As the effects of social media in education are context sensitive research results reflecting different contexts around the world will contribute to the literature on social media and education Student engagement in learning a growing interest in educational research is widely believed to contribute to the success of learning The contemporary literature shows that students can engage in learning affectively behaviorally and cognitively Recent studies are also interested in using technology to mediate students social and metacognitive engagement in learning As student engagement is a multidimensional area interdisciplinary studies have recently expanded their literature The use of social media to increase student engagement in learning remains underexplored

The Concise Encyclopedia of Applied Linguistics Carol A.
