Evaluating Environment In International Development:

Evaluating Environment in International Development Juha I. Uitto, 2021-03-30 This book provides novel and in depth perspectives on evaluating environment and sustainability issues in developing countries Evaluating Environment in International Development focuses on the approaches and experiences of leading international organizations not for profits and multilateral and bilateral aid agencies to illustrate how systematic evaluation is an essential tool for providing evidence for decision makers Moving beyond projects and programmes it explores normative work on the environment as well as environmental consequences of economic and social development efforts This new edition reflects on the 2030 Agenda for Sustainable Development and Sustainable Development Goals and considers how they have influenced efforts in a wide range of countries and what the implications are for evaluation It also explores ways in which Big Data and geospatial approaches might be utilized Significantly updated throughout to reflect recent developments in climate change research and on the implications of the 2020 pandemic this volume will be of great interest to students and scholars of environment studies development studies international relations sustainable development and evaluation as well as practitioners in international organizations and development and environmental NGOs The Open Access version of this book available at <http://www.taylorfrancis.com/books/9781003094821> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Evaluating Environment in International Development Juha I. Uitto, 2014 More than twenty years after the Earth Summit was held in Rio de Janeiro in 1992 both national and international actors in governmental and nongovernmental fields are still searching for insights into how sustainable development can be advanced and environmental concerns incorporated into the development agenda more effectively Moreover climate change has emerged as a preeminent challenge to both the environment and to development Evaluating Environment in International Development provides international perspectives and in depth knowledge of evaluating development and the environment and applies evaluation knowledge to climate change mitigation and adaptation The book focuses on the approaches and experiences of leading international organizations not for profits and multilateral and bilateral aid agencies to illustrate how systematic evaluation is an essential tool for providing evidence for decision makers It provides novel and in depth perspectives on evaluating environment and sustainability issues in developing countries Moving beyond projects and programmes it considers aspects such as evaluating normative work on the environment and evaluating environmental consequences of economic and social development efforts This original collection should be of interest to scholars of environment studies development studies international relations sustainable development and evaluation as well as practitioners in international organizations and development and environmental NGOs

Transformational Change for People and the Planet Juha I. Uitto, Geeta Batra, 2022-01-13 This Open Access book deals with the pressing question of how to achieve transformational change that reconciles development with environmental sustainability It particularly focuses on the

role of evaluation in finding sustainable solutions Environment and development are closely interlinked as are human health and ecosystem health The pandemic that began in 2020 demonstrated in no uncertain terms how destruction of habitats has allowed hitherto unknown pathogens spill over to humans wreaking havoc on people s lives and livelihoods We are already seeing the impacts of global climate change in terms of heatwaves forest fires and increased storms The Sustainable Development Goals SDGs explicitly recognize the equal importance of the social economic and environmental dimensions of development In these turbulent times when humankind faces multiple complex challenges it is essential to know that our responses are effective and that they make a positive difference Evaluation can provide invaluable lessons to how we design policies strategies and programs and how we allocate limited resources between competing priorities This book brings together key thinkers and practitioners from the public and private sectors from major multilateral organizations and from bilateral donor agencies to present the latest knowledge and experience on how to evaluate interventions in the nexus of environment and development The book does not promote any particular approach or methodology but rather emphasizes the need for mixed methods to address the question at hand in the best and most suitable manner It covers cases from a variety of fields from climate change mitigation and adaptation energy efficiency and renewable energy natural resources management biodiversity conservation and more This book is not a conference proceedings although it has its roots in the Third International Conference on Evaluating Environment and Development organized by the GEF Independent Evaluation Office in October 2019 The conference brought together a larger number of established and upcoming evaluators researchers and evaluation users from the Global North and South representing a wide variety of organizations to discuss the frontiers of environment and development evaluation Following the conference the editors identified and contacted the participants who made key contributions at the conference and asked them to develop their ideas and papers into book chapters according to a coherent plan

Evaluating Climate Change Action for Sustainable Development Juha I. Uitto, Jyotsna Puri, Rob D. van den Berg, 2017-01-11 This book is open access under a Creative Commons license This authoritative book presents the ever progressing state of the art in evaluating climate change strategies and action It builds upon a selection of relevant and practical papers and presentations given at the 2nd International Conference on Evaluating Climate Change and Development held in Washington DC in 2014 and includes perspectives from independent evaluations of the major international organisations supporting climate action in developing countries such as the Global Environment Facility The first section of the book sets the stage and provides an overview of independent evaluations carried out by multilateral development banks and development organisations Important topics include how policies and organisations aim to achieve impact and how this is measured whether climate change is mainstreamed into other development programs and whether operations are meeting the urgency of climate change challenges The following sections focus on evaluation of climate change projects and policies as they link to development from the perspective of international organisations NGO s

multilateral and bilateral aid agencies and academia The authors share methodologies or approaches used to better understand problems and assess interventions strategies and policies They also share challenges encountered what was done to solve these and lessons learned from evaluations Collectively the authors illustrate the importance of evaluation in providing evidence to guide policy change to informed decision making [Towards Sustainable Futures](#) Ida Kristine Lindkvist, Per Øyvind Bastøe, Kim Forss, 2024-03-12 [Towards Sustainable Futures](#) serves as a guide to better understand what roles evaluation can play in sustainability Rather than proposing a single definition of sustainability or methodological approach this book gives us the tools to improve the quality and relevance of evaluation of sustainability Divided into two parts the first part introduces the reader to key debates and challenges related to evaluation of sustainability Part Two provides examples of methods and applications By combining a stellar line up of specialists theorists and practitioners in the field of development evaluation with expert accessible and engaged analysis of key issues [Towards Sustainable Futures](#) is a must read source for re tooling and re focussing evaluation towards the green transition imperative It should be essential reading for scholars and practitioners of evaluation Chapters 1 4 6 and 15 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Evaluating Global Education, 1987 **People and Rangelands**, 1999 **Linking Conservation and Poverty Reduction**, 2008 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company **Evaluating Sustainable Development in the Built Environment** Peter S. Brandon, Patrizia Lombardi, 2010-12-01 The first edition was extremely well received providing an introduction and insight to this important topic in a comprehensive yet easy to read form It was chosen to be issued to the representatives of the organizations from the G8 and G20 countries attending the University Summit held in Turin in 2009 which addressed the issue of how education and research can assist sustainable development The second edition completely updated to reflect the significant advances and new insights that have been made since publication of the first edition focuses on two main issues Facilitating a dialogue between all stakeholders so that the complexity of the problem can be exposed structured and communicated Understanding how to assess progress in sustainable development It continues to provide coherent guidance on the techniques that can be used to assess sustainable development in a rigorous manner The approach is introduced using illustrations and case studies together with follow up references It remains the ideal starting point for those trying to get a handle on the subject and for those who wish to examine a structured and systematic approach to the evaluation of sustainable development in the built environment

Proceedings of the ... International Symposium on Remote Sensing of Environment, 1988 **Environmental Evaluation and Global Development Institutions** Geeta Batra, Juha I. Uitto, Osvaldo N. Feinstein, 2021-10-10 Evaluation is increasingly important for finding sustainable solutions for the people and the planet based on a systematic analysis of what works for whom and under what circumstances and to contribute to the achievement

of the Sustainable Development Goals as they pertain to the environment This book explores why the Global Environment Facility GEF invests in evaluation for accountability and learning to inform its decision making on programming priorities and how this leads to wiser funding decisions and better program performance on the ground The book is based on real life experiences of how to make evaluation count for international environmental action Drawing upon comprehensive evaluations of the GEF it provides unique insights from authors responsible for designing implementing and disseminating the findings of the evaluations No other multilateral development or environment agency places evaluation fully at the center of their decision making The book outlines the trends in the global environment and the changing landscape of international environmental finance It defines the role of the GEF and explains its institutional framework and the unique partnership that involves donor and recipient countries multilateral development banks UN agencies nongovernmental organizations NGOs and national agencies in the developing countries Further it provides useful pointers to other organizations wishing to enhance evidence based decision making for improving their relevance performance and impact The book will be most suitable for graduate level specialized study in a variety of disciplines such as environmental and development economics political science international relations geography sociology and social anthropology The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Universities and the Sustainable Development Future Peter H. Koehn, Juha I. Uitto, 2017-04-07

This study provides institutions of higher learning around the world with new and inclusive guidelines that can be applied contextually to produce credible evidence regarding the outcome and impact of their teaching research societal outreach governance and partnering activities with regard to sustainable development The 2015 International Year of Evaluation is behind us and post 2015 Sustainable Development Goals are coming into play Donors the public international organizations and higher education participants need to know if universities are advancing sustainable development Although university involvement in sustainable development research teaching and outreach has increased substantially systematic learning from higher education engagements has been disappointing and the extent to which university initiatives have influenced sustainable development particularly in the Global South is widely contested This book presents and demonstrates the utility of a flexible framework that will inspire substantial contextually based improvements in the ways universities evaluate and therefore activate and improve their sustainable development undertakings It provides a cutting edge resource for students scholars university leaders and policy drivers at all levels of governance who are concerned with contemporary higher education sustainable development climate change and evaluation challenges

Evaluating Environment In International Development Introduction

In today's digital age, the availability of Evaluating Environment In International Development books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Evaluating Environment In International Development books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Evaluating Environment In International Development books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Evaluating Environment In International Development versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Evaluating Environment In International Development books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Evaluating Environment In International Development books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Evaluating Environment In International Development books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to

digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Evaluating Environment In International Development books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Evaluating Environment In International Development books and manuals for download and embark on your journey of knowledge?

FAQs About Evaluating Environment In International Development Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Evaluating Environment In International Development is one of the best book in our library for free trial. We provide copy of Evaluating Environment In International Development in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Evaluating Environment In International Development. Where to download Evaluating Environment In International Development online for free? Are you looking for Evaluating Environment In International Development PDF?

This is definitely going to save you time and cash in something you should think about.
