## **Europe's Immigration Challenge Reconciling Work Welfare And Mobility Policy Network:**

**Europe's Immigration Challenge** Grete Brochmann, Elena Jurado, 2013-01-30 As the financial crisis continues to cast its long shadow over Europe the view that immigrants compete unfairly for jobs and present an unsustainable burden on the European Social Model appears to be gathering support in some circles But at the same time the right type of immigrant has often been perceived as a potential cure for Europe's sluggish labour markets and ailing welfare systems especially immigrants who are young easily employable and who arrive without family So far efforts to solve this conundrum as in the UK's points based system have focused on increasing the selectivity of the admissions process In this book leading immigration experts question the effectiveness of this approach Besides efforts to regulate the flow and rights of immigrants they argue that governments across Europe need to devise labour market welfare and immigration policies in a more integrated fashion

**Europe: No Migrant's Land?** Maurizio Ambrosini (a cura di), 2017-01-30 The Mediterranean region has always been marked by intense migration flows Over the last few years political instability in Middle East and North African countries coupled with longstanding demographic and economic trends have caused a sudden upsurge of migrants reaching Europe's shores Despite scattered shows of solidarity however the European response has been slow and fragmented This volume offers a complete and encompassing analysis of the current state of play in terms of migration flows across the Mediterranean and policy responses by European transit and receiving countries Attention is specifically devoted to ongoing debates about the management of mixed migration the particular profiles and needs of asylum seekers migrants labour market access and integration policies in Europe

**The Social Legitimacy of Targeted Welfare** Wim van Oorschot, Femke Roosma, Bart Meuleman, Tim Reeskens, 2017-09-29 This book addresses new perspectives on the perceived popular deservingness of target groups of social services and benefits offering new insights and analysis to this quickly developing field of welfare attitudes research It provides an up to date state of the art in terms of concepts theories research methods and data The book offers a multi disciplinary view on deservingness attitudes with contributions from sociology political science media studies and social psychology It links up with central welfare state debates about the allocation of collective resources between groups with particular needs and wider categories of need

**Governing Britain** Patrick Diamond, 2013-11-27 Number Ten Downing Street and the Cabinet Office are at the apex of power in British government but relatively little is known about the day to day functioning of these great institutions of state With an unprecedented level of access and wide ranging interviews from former ministers senior civil servants and political advisers Patrick Diamond examines the administrative and political machinery serving the Prime Minister and considers how it evolved from the early years of New Labour to the election of the Coalition Government in 2010 Drawing on previously unpublished material Diamond provides a unique analysis which considers the continuing power of the civil service the tensions between permanent officials and political aides and the hard grind of achieving policy change from the centre in Whitehall By

exploring the ideological beliefs underpinning the policy making process and in illuminating the importance of the British Political Tradition in shaping the institutions and practice of statecraft this book reveals the contemporary realities of government and democracy in practice      **Irregular Immigration in Southern Europe** Maurizio Ambrosini,2018-01-05 Focusing on the dynamics of irregular immigration in Southern EU Member States this book analyses how the phenomenon is managed at national and local levels in different legal and political systems In doing so it answers vital policy questions regarding the continued existence of irregular migration pathways to legality and relations between unauthorized migrants and receiving societies The author argues that while the economic crisis and migrant flows coming from the South and East of the Mediterranean Sea have called this regime into question it is the needs of labour markets in Southern Europe and compliance with European Union rules that has had a more dominant effect The particular manner in which labour markets political actors social institutions and migrants networks intersect are shown to be distinctive features of the migration regime in this region Describing bordering and debordering practices from the island of Lampedusa to local communities in distant regions this book brings fresh insights to urgent areas of debate within the field It analyses why many irregular immigrants are socially accepted such as women who perform domestic and care activities whereas others are rejected and marginalized as is often the case for asylum seekers despite having permission to reside Drawing together twenty years of research and addressing the current crisis it will appeal to policy makers students and scholars of migration      **Crisis, Austerity, and Everyday Life** Gargi Bhattacharyya,2015-10-29 Will austerity never end This timely and insightful book argues that austerity seeks to set the terms of political and economic life for the foreseeable future extending techniques of exclusion to ever greater sections of the population      Global Health Worker Migration Margaret Walton-Roberts,2023-07-13 International skilled health worker migration is a key feature of the global economy a major contributor to socio economic development and reflective of the transnationalization of health and elder care that is underway in most OECD nations The distribution of care and health workforce planning has previously been analysed solely within national contexts but increasingly scholars have shown how care deficits are being addressed through transnational responses This Element examines the complex processes that feed health worker migrants into global circulation the losses and gains associated with such mobility and examples of good practices where migrants sending and destination communities experience the best possible outcomes It will approach this issue through the lens of problems and solutions making connections across the micro meso and macro within and across the sections      *Territorial Cohesion in Rural Europe* Andrew Copus,Philomena de Lima,2014-08-13 This book reflects on how the economies social characteristics ways of life and global relationships of rural areas of Europe have changed in recent years This reveals a need to refresh the concepts we use to understand measure and describe rural communities and their development potential This book argues that Europe has outgrown many of the stereotypes usually associated with it with substantial implications for European Rural Policy Rural

structural change and its evolving geography are portrayed through regional typologies and the concept of the New Rural Economy Demographic change migration business networks and agricultural restructuring are each explored in greater detail Implications for equality and social exclusion and recent developments in the field of governance are also considered Despite being a subject of active debate interventions in the fields of rural and regional development have failed to adapt to changing realities and have become increasingly polarized This book argues that rural regional policy needs to evolve in order to address the current complex reality partially reformulating territorial or place based approaches and the New Rural Paradigm following a set of principles termed Rural Cohesion Policy

**Social Sciences Index**, 1996

*Migration and Welfare in the New Europe* Emma Carmel, Alfio Cerami, Theodoros Papadopoulos, 2011 Providing innovative insights this book moves the debate on migration and integration policies in the enlarged European Union and its member states onto new terrain

**Immigration and Welfare** Michael Bommes, Andrew Geddes, 2000 This timely and original book explores new migration challenges such as asylum seekers and Europe s increasingly restrictive immigration policies

**Migrants with Irregular Status in Europe** Sarah Spencer, Anna Triandafyllidou, 2020-05-20 This open access book explores the conceptual challenges posed by the presence of migrants with irregular immigration status in Europe and the evolving policy responses at European national and municipal level It addresses the conceptual and policy issues raised post entry by this particular section of the migrant population Drawing on evidence from different parts of Europe the book takes the reader through philosophical and ethical dilemmas legal and sociological analysis to questions of public policy and governance before addressing the concrete ways in which those questions are posed in current policy agendas from the international to the local level As such this book is a valuable read to researchers practitioners and policy makers as well as to students working on irregular migration in Europe in a comparative and or country based perspective

**Migration, Citizenship, and the European Welfare State** Carl-Ulrik Schierup, Peo Hansen, Stephen Castles, 2006-03-16 This book provides a major new examination of the current dilemmas of liberal anti racist policies in European societies linking two discourses that are normally quite separate in social science immigration and ethnic relations research on the one hand and the political economy of the welfare state on the other The authors rephrase Gunnar Myrdal s questions in *An American Dilemma* with reference to Europe s current dual crisis that of the established welfare state facing a declining capacity to maintain equity and that of the nation state unable to accommodate incremental ethnic diversity They compare developments across the European Union with the contemporary US experience of poverty race and class They highlight the major moral political dilemma emerging across the EU out of the

discord between declared ideals of citizenship and actual exclusion from civil political and social rights Pursuing this overall European predicament the authors provide a critical scrutiny of the EU's growing policy involvement in the fields of international migration integration discrimination and racism They relate current policy issues to overall processes of economic integration and efforts to develop a European social dimension Drawing on case study analysis of migration the changing welfare state and labour markets in the UK Germany Italy and Sweden the book charts the immense variety of Europe's social and political landscape Trends of divergence and convergence between single countries are related to the European Union's emerging policies for diversity and social inclusion It is among other things the plurality of national histories and contemporary trajectories that makes the European Union's predicament of migration welfare and citizenship different from the American experience These reasons also account in part for why it is exceedingly difficult to advance concerted and consistent approaches to one of the most pressing policy issues of our time Very few of the existing sociological texts which compare different European societies on specific topics are accessible to a broad range of scholars and students The European Societies series will help to fill this gap in the literature and attempt to answer questions such as Is there really such a thing as a European model of society Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life such a family or religious behaviour What do the societies of Western Europe have in common with those further to the East This series will cover the main social institutions although not every author will cover the full range of European countries As well as surveying existing knowledge in a manner useful to students each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent The series editor is Colin Crouch
