Toward a Prosecutor for the European Union Volume 1 Katalin Ligeti, 2012-12-17 In an era in which the EU's influence in criminal law matters has expanded rapidly attention has recently turned to the possible creation of a European Public Prosecutor's Office. This two volume work presents the results of a study carried out by a group of European criminal law experts in 2010-2012 with the financial support of the EU Commission whose aims were to examine in detail current public prosecution systems in the Member States and to scrutinise proposals for a new European office. Volume 1 begins with thorough descriptions of 20 different national legal systems of investigation and prosecution addressing a range of evidential and procedural safeguards. These will serve as a point of reference for all future research on public prosecutors. Volume 1 also contains a series of cross-cutting studies of the key issues that will inform debates about the creation of a European Public Prosecutor's Office including studies of vertical cooperation in administrative investigations in subsidy and competition cases, the accession of the EU to the ECHR, judicial control in cooperation in criminal matters, mutual recognition and decentralised enforcement of European competition law. Volume 2, which will be published in 2013, presents a draft set of model rules for the procedure of the European Public Prosecutor's Office and continues with a set of comparative studies of the national legal systems that cover the gathering of evidence, seizure of assets, arrests, tracking and tracing, prosecution measures, procedural safeguards, the presumption of innocence and the right to silence, access to the file and victim reconciliation. Volume 2 concludes with the final report written by Professor Ligeti summarising the findings of the group and reporting on the prospects for the proposed reform.

parquets Michèle-Laure Rassat, 1982 Procédure pénale - 3e édition RASSAT, 2017-06-27 La procédure pénale comporte deux aspects : un aspect organique qui décrit l'organisation et la compétence des différentes autorités publiques chargées de la répression et éventuellement de la prévention des infractions et un aspect fonctionnel qui évoque seule l'appellation traditionnelle de procédure pénale et qui étudie la démarche procédurale suivie depuis le soupçon de commission d'une infraction jusqu'au prononcé de la condamnation définitive : phase policière d'investigation, phase judiciaire d'instruction, prétoire, phase de jugement et d'acquisition de la chose jugée après exercice éventuel de voies de recours. Les intérêts en jeu au cours du processus pénal sont toujours plus importants que ceux qui sont en discussion dans le cadre des autres formes de procédures : dans la mesure d'abord où ils concernent au-delà des individus en cause la collectivité dont l'ordre public est troublé et ensuite parce que le processus pénal implique pour la personne poursuivie. Or ces deux entités en cause ont le plus souvent des intérêts antagonistes. L'état a toujours intérêt à une sanction rapide et certaine des infractions pénales et il peut tenter de promouvoir des mécanismes qui aboutissent tous les coups et d'une façon très sévère ce résultat. Mais d'une part la personne soupçonnée peut être innocente et d'autre part et même si elle est coupable certains procédés sont inadmissibles dans le cadre d'un état civilisé. Le problème

fondamental de la procédure pénale est donc de chercher la voie d'un équilibre satisfaisant entre l'intérêt de la collectivité au châtiment raisonnable des coupables et l'intérêt de l'individu poursuivi coupable ou non de pouvoir se défendre. C'est ce qui explique les incessants débats dont la matière fait l'objet depuis deux siècles les quelque cent formes plus ou moins consacrées d'ajustement : un Code qui ne date que de 1958 et les projets de réforme pratiquement toujours en cours de laboration ou de discussion
