

Symbol DS6708-DL Series

General Purpose Handheld Digital Imager Scanner

FEATURES

Embedded and server-based parsing agents

Enable users to read the PDF-417 bar code on a US driver's license and use that information for a multitude of applications including auto-population of a credit or loyalty card form, age verification or returns monitoring.

Support for all major 1D, PDF and 2D symbologies

Delivers application flexibility; eliminates need for multiple devices — and associated costs.

RDM (Remote Scanner Management Ready)

Lowers IT expenses and TCO by enabling remote management from a central location.

8 FLU-TS class specifications, tempered glass exit window. Designed to reduce the impact of everyday use for maximum reliability and uptime; reduces downtime and TCO.

Utilizing driver's license information to increase productivity and reduce liability

The Symbol DS6708-DL combines all the features of Motorola's standard DS6708 imager, such as omni-directional 1D/2D bar code scanning, with embedded and server-based parsing agents that enable users to read the PDF-417 bar code on a US driver's license and use that information for a multitude of applications including auto-population of a credit or loyalty card form, age verification or returns monitoring. With a simple scan of a driver's license, retailers can increase efficiencies, reduce manual keying errors and ensure that they are complying with local, state and federal regulations regarding the sale of certain items such as tobacco and alcohol.

Two solutions, one scanner

Motorola's unique solution offers two parsing options, which are both available in one model. The server-based solution enables retailers to develop an application in a centralized processing environment. The embedded solution appeals to retailers without central services who need a solution that works with multiple interfaces as well as all operating systems and host configurations. Because the parsing is done in the scanner and the output is controlled by the user, the scanner can easily be used in all environments with very little start up effort. And, because there is no additional software or licensing fees, you are up and ready to

go right out of the box. Both the server-based and embedded solutions are available in one model, making it a wise choice for customers of all sizes.

You'll have the latest DMV updates

Because different states use different data formats in their driver's licenses and these formats change from time to time, state by state, the Symbol DS6708-DL by Motorola offers a complete solution that includes yearly updates for new format releases from each state, helping to ensure that your investment is protected from the start.

Traditional scanning and more

The versatile Symbol DS6708-DL from Motorola not only offers PDF-417 reading and parsing capabilities, it also delivers the functionality of a traditional 1D and 2D bar code scanner, enabling you to meet additional data capture needs as required.

An outstanding return on investment

The Symbol DS6708-DL reduces capital and operating expenses by eliminating the need to purchase, manage and support additional devices and separate bar code scanners for different symbologies. Fewer devices to deploy significantly reduce the time and costs associated with training — and positively impacts productivity. The ability to remotely track, deploy and upgrade Symbol DS6708-DL scanners reduces typical management costs.
