*Drinking Dilemmas* Thomas Thurnell-Read, 2015-12-14 Drinking and drunkenness have become a focal point for political and media debates to contest notions of responsibility discipline and risk yet at the same time academic studies have highlighted the positive aspects of drinking in relation to sociability belonging and identity These issues are at the heart of this volume which brings together the work of academics and researchers exploring social and cultural aspects of contemporary drinking practices These drinking practices are enormously varied and are spatially and culturally defined The contributions to the volume draw on research settings from across the UK and beyond to demonstrate both the complexity and diversity of drinking subjectivities and practices Across these examples tensions relating to gender social class age and the life course are particularly prominent Rather than align to now long established moral discourses about what constitutes good and bad drinking sociological approaches to alcohol foreground the vivid lived nature of alcohol consumption and the associated experiences of drunkenness and intoxication In doing so the volume illuminates the controversial yet important social and cultural roles played by drink for individuals and groups across a range of social contexts *Ebook: Sociology: A Brief Introduction* Schaefer, 2014-10-16 Ebook *Sociology: A Brief Introduction* *Ebook: Adolescence* Steinberg, 2016-04-16 Ebook *Adolescence* **Ebook: Life-Span Development** Santrock, 2016-09-16 Ebook *Life Span Development* *Making It* Ellen T. Meiser, 2024-10-11 The restaurant industry is one of the few places in America where workers from lower class backgrounds can rise to positions of power and prestige Yet with over four million cooks and food preparation workers employed in America's restaurants not everyone makes it to the high status position of chef What factors determine who rises the ranks in this fiercely competitive pressure cooker environment *Making It* explores how the career path of restaurant workers depends on their accumulation of kitchen capital a cultural asset based not only on their ability to cook but also on how well they can fit into the workplace culture and negotiate its hierarchical structures After spending 120 hours working in a restaurant kitchen and interviewing fifty chefs and cooks from fine dining establishments and greasy spoon diners across the country sociologist Ellen Meiser discovers many strategies for accumulating kitchen capital For some it involves education and the performance of expertise others climb the ranks by controlling their own emotions or exerting control over coworkers *Making It* offers a close and personal look at how knowledge power and interpersonal skills come together to determine who succeeds and who fails in the high pressure world of the restaurant kitchen **Alcohol** Janet Chrzan, 2013 From the publisher The purpose of this book is to provide a critical examination of human use of alcohol across cultures and through time thereby providing a framework for undergraduate students to self consciously examine their beliefs about and use of alcohol Almost all books written about alcohol for college students have a problems perspective either clinically alcohol as a drug or societally as deviance or a social problem Many students have problems responding to these approaches Understanding human use of alcohol anthropologically is a refreshingly different and effective method of harm reduction

which can be used by instructors to teach students how to reduce potential damage to themselves and others while at the same time conveying the anthropological imagination      Reconfiguring Drinking Cultures, Gender, and Transgressive Selves Emeka W. Dumbili, 2024-03-23 This book presents an in depth analysis of young people s experiences of diverse drinking practices including heavy drinking and drunkenness as fun and pleasurable as they navigate gendered leisure spaces Using qualitative data elicited through semi structured interviews and focus group discussions the analysis engages with theories and concepts of culture gender and transgression to foreground the roles that socio cultural and material elements and human agency play in shaping alcohol consumption in contemporary Nigeria It focuses on the enactment of hyper heterosexual and alternative masculinities and the reconfigurations of passive and non passive femininities through drinking practices It also interrogates how and why multinational alcohol companies are targeting Nigerian women and youths and the extent to which their activities are contributing to changing gendered drinking and sexual practices which are at odds with the extant local norms that promote abstinence moderation among adults and sexual purity among unmarried youths Importantly this book moves beyond solely Western theorizing by drawing on both Western and non Western gender theories to analyze how contemporary Nigerian young men and women do masculinity and femininity with alcohol and will be a valuable resource for social scientists students policymakers practitioners and the general public interested in youth drinking behaviours multinational alcohol companies activities and decolonizing gender scholarship      Alcohol, Gender and Culture Dimitra Gefou-Madianou, 2002-01-04 Europeans constitute 12 and a half per cent of the world s population but consume 50 per cent of the recorded world production alcohol and this consumption plays a significant role in the cultural religious and social identities of these countries The contributors show how different groups define the proper use of alcohol how State policies may effect drinking behaviour and highlight how beverages and comestibles must be seen in relation to each other From this it is shown how important socio cultural distinctions are made between and within communities gender relations ethnic groups and socio economic groups and within religious ideologies what one drinks how one drinks with whom and where all influence not how alcoholic substances are regarded but how social relations are experienced Alcohol Gender and Culture clearly demonstrates how the social construction of drinking may provide an analytical tool with which to approach different socio cultural groups and illustrates how any cultural group can be compared to another by its attitudes to alcohol It will be invaluable reading for students and lecturers of anthropology cultural history and gender studies      Constructive Drinking Mary Douglas, 2003 First published in 1987 Constructive Drinking is a series of original case studies organized into three sections based on three major functions of drinking The three constructive functions are that drinking has a real social role in everyday life that drinking can be used to construct an ideal world and that drinking is a significant economic activity The case studies deal with a variety of exotic drinks      Alcohol: A Social and Cultural History Mack P. Holt, 2006-01-01 Why are we so ambivalent about alcohol Are we torn between our love of a drink and the need to restrict or even prohibit alcohol

How did saloon culture arise in the United States Why did wine become such a ubiquitous part of French culture Alcohol A Social and Cultural History examines these questions and many more as it considers how drink has evolved in its functions and uses from the late Middle Ages to the present day in the West Alcohol has long played an important role in societies throughout history and understanding its consumption can reveal a great deal about a culture This book discusses a range of issues including domestic versus recreational use the history of alcoholism and the relationship between alcohol and violence religion sexuality and medicine It looks at how certain forms of alcohol speak about class gender and place Drawing on examples from Europe North America and Australia this book provides an overview of the many roles alcohol has played over the past five centuries *The Ethics of Drink and Other Social Questions, Or, Joints in Our Social Armour* James Runciman, 1893 *Drinking* Susanna Barrows, Robin Room, 2023-11-15 *Drinking Behavior and Belief in Modern History* explores the complex and multifaceted role of alcohol in shaping cultures societies and behaviors throughout modern history The book brings together diverse essays from historians and sociologists examining how alcohol consumption has influenced daily life social movements and political ideologies By exploring the material and symbolic significance of alcohol the volume sheds light on its place in social history drawing connections between drinking practices and broader societal changes The book also delves into the responses to alcohol related problems from the temperance movements of the 19th century to modern day medicalization and state interventions showing how alcohol has been both a source of cultural identity and a focal point for social control Through interdisciplinary perspectives the collection offers valuable insights into how alcohol consumption reflects and shapes power dynamics class structures and cultural norms By analyzing drinking subcultures the book uncovers the different ways alcohol has been consumed and understood across time and places from working class taverns to elite private rituals The authors also explore how alcohol related policies and societal reactions have evolved offering a deep and thoughtful look into the complex relationship between alcohol and society *Drinking Behavior and Belief in Modern History* is an essential read for anyone interested in understanding the social cultural and political dimensions of alcohol throughout modern history This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 *States of Intoxication* John O'Brien, 2018-06-13 This book provides an illuminating perspective on alcohol use drawing on approaches from both anthropological research and historical sociology to examine our ambivalent attitudes to alcohol in the modern West From anthropological research on non Western non modern cultures the author demonstrates that the use of alcohol or other psychoactive substances is a universal across human societies and indeed has tended to be seen as unproblematic or even a sacred aspect of culture often used in a highly ritualised context From historical sociology it is shown that alcohol has also been central to the process of state formation not

only as a crucial source of revenue but also through having an important role in the formation of political communities which frequently are a source of existential fear for ruling groups Tracing this contradictory position occupied by alcohol over the course of history and civilisation States of Intoxication sheds light on the manner in which it has produced the very peculiar modern perspective on alcohol

**Drinking Cultures** Thomas M. Wilson, 2005-05 Contributors look at alcohol consumption across cultures and what it means to the people who consume or equally tellingly refuse to consume Alcohol plays a role in a wide range of functions religious familial social and even political and this is a cross cultural study of the profound impact alcohol has on national identity

*International Handbook on Alcohol and Culture* Dwight B. Heath, 1995-09-30 The first authoritative guide to how the world drinks this reference details alcohol use in different countries and cultures Variation is striking with alcohol sometimes a food a sacrament a symbol a tool a tranquilizer a medicine a love potion or an object of scorn often with very different meanings and uses in a single country This volume reveals multicultural and ethnic beliefs practices and attitudes about drinking around the world An extensive introduction discusses the close link between alcohol and culture and provides a foundation for the rest of the book Each of the following chapters is written by an expert contributor and discusses alcohol and culture in a particular country Chapters discuss historical trends drinking among ethnic and religious minorities national policies and social outcomes Countries range from industrial nations known for their alcohol research to developing nations and to places famous for drinking A concluding chapter highlights important similarities and differences

Alcohol, Drinking, Drunkenness Mark Jayne, Gill Valentine, Sarah L. Holloway, 2016-03-23 While disciplines such as anthropology sociology politics social policy and the health and medical sciences have a tradition of exploring the centrality of alcohol drinking and drunkenness to people's lives geographers have only previously addressed these topics as a peripheral concern Over the past few years however this view has begun to change accelerated by an upsurge in interest in alcohol consumption relating to political and popular debate in countries throughout the world This book represents the first systematic overview of geographies of alcohol drinking and drunkenness It asks what role alcohol drinking and drunkenness plays in people's lives and how space and place are key constituents of alcohol consumption It also examines the economic political social cultural and spatial practices and processes that are bound up with alcohol drinking and drunkenness Designed as a reference text each chapter blends theoretical material with empirical case studies in order to analyse drinking in public and private space in the city and the countryside as well as focusing on gender generations ethnicity and emotional and embodied geographies

Cultural and Sociological Aspects of Alcoholism and Substance Abuse Barry Stimmel, 2014-03-18 In this highly informative book on the sociocultural interactions between alcoholism and drug abuse experts explore the relationship of such factors as ethnicity family religion and gender to chemical abuse and address important implications for treatment
